Chapter 14: The Last Days of the Old Woman

At ni obae... oi ni shite.

This is how the old should be read. Not 'At didn't do it'.

[I think it means 'Thrown down from the house down'.]

Short title: Deluded [The house mistress' belief]. This story is the continuation of Chapter 14. It's how it starts. Actually, I wanted to draw this after I've finished Chapter 15. I was drawing it but my body kept aching on the arms and thought this book would never come out. I absolutely did not want to present a book that didn't finish from my heart at the Chronicle, but after March I kept lying in bed for almost half a year. I thought this was going to be impossible for an old woman like me, but it seems I eventually made it to the end. However, my body is such a mess, when this is over I'll go back to my sleepy old woman life. This is also the reason why this manga is only pre and beta. For sure. But I like it this way, what about you? Anyway, drawing manga is always such a hard work. In fact,
